

Space.....the Final Frontier

Trying to figure out just how much space your Service Unit will need for its cookie delivery? Thinking of being a Cookie Jar or Cupboard? These tables may prove helpful.

A relatively small order of 1500 cases of cookies will fit in a two-car garage. Remember to leave an extra space in a covered area to assemble troop orders. It does rain in southern California!

Larger orders will require a much larger area, *i.e.*, warehouse, storefront, etc. Begin now to look around your Service Unit area; check with local realtors. The Girl Scout Council of Orange County requires a two week notice in order to provide a certificate of insurance.

If you find a space that is available for a Service Unit delivery and/or is large enough to accommodate more than one Service Unit at a time, please contact Ronda Sussman, at (949) 461-8846 or Lisa Nevares (949) 461-8847.

The following table shows the area required in the original pallet state or restacked into approximately 6' high stack in the normal Tie Pattern. The Tie Pattern refers to the way cases are configured in each layer. Each variety has its own Tie Pattern. Please be sure to keep the cookies in their original Tie Pattern pictured on each case. This will help you count the number of cases delivered.

TOTAL # OF COOKIE CASES	1500	2000	2500	3000	3500	4000
Required storage area (Sq. Ft.) as delivered on pallets* OR	250	325	400	425	550	625
restacked into 6" high stacks*	300	400	500	600	700	800
*Both in the standard Tie Pattern
